

RUSLAN MIKAILOV

Symfony Developer | 3+ Years Experience

Email: kosmocvet@gmail.com | LinkedIn: [R. Mikailov](#) | Telegram: t.me/pumexer | Dresden, Germany

EDUCATION

BACHELOR OF INFORMATICS

Dniprovsky State Technical University Kamenskoe, Ukraine

SKILL SUMMARY

- **Frameworks and Languages:** Symfony 5/6/7, PHP, JavaScript, AJAX, jQuery, Yii2
 - **Testing and Debugging:** PHPUnit, Xdebug
 - **Databases:** MySQL, PostgreSQL, Elasticsearch, Redis
 - **Web Servers and Tools:** Nginx, Caddy, Docker, RabbitMQ
 - **Design and Architecture:** MVC, REST API, Design Patterns, SOLID, OOP
 - **Operating Systems:** Unix/Linux, MacOS
 - **Cloud and Monitoring:** AWS, Grafana, Sentry
-

WORK EXPERIENCE

BACKEND DEVELOPER | [EFUMO LLC](#)

Aug 2024 - Jan 2025

- Developed and maintained custom E-commerce solutions and REST API services using Symfony and API Platform.
- Implemented Elasticsearch for product search and Redis caching for performance optimization.
- Designed and optimized databases for high-load applications with PHPUnit testing coverage.
- Applied Design Patterns and SOLID principles while collaborating with cross-functional teams.
- Tech stack: Symfony 6-7, API Platform, PostgreSQL, Docker, Redis, Elasticsearch, PHPUnit

SYMFONY DEVELOPER | [LYTVYNOV PRODUCTION](#)

Oct 2023 - Jul 2024

- Developed and maintained internal management systems for international clients.
- Optimized performance using Redis caching, database optimization, and RabbitMQ.
- Implemented monitoring and debugging with Xdebug and Sentry.
- Participated in code reviews ensuring security and best practices
- Tech stack: Symfony 5-6, MySQL, Redis, Docker, Git, RabbitMQ, Sentry, Xdebug, PHPUnit

BACKEND DEVELOPER | [ITDOORS](#)

Feb 2023 - Aug 2023

- Developed custom web applications with RESTful API endpoints and business logic implementation.
- Designed and optimized database queries for improved application performance.
- Integrated third-party services and implemented dynamic frontend with JavaScript/jQuery.
- Configured Nginx and maintained code following MVC patterns
- Tech stack: Symfony 5, MySQL, Docker, Linux, Nginx, JavaScript, jQuery, AJAX

BACKEND DEVELOPER | [U-KNIGHT WEB STUDIO LLC](#)

Jul 2021 - Dec 2022

- Backend development working on diverse web development projects.
 - Implementing features for websites and web applications using Symfony framework.
 - Learning best practices and gaining experience with MVC architecture and OOP.
 - Working with HTML, CSS, JavaScript, and AJAX for frontend integration.
 - Collaborating with senior developers and participating in code reviews.
 - Tech stack: Symfony 4-5, Yii2, MySQL, HTML, CSS, JavaScript, AJAX, GitLab
-

CERTIFICATES

- EF SET English Certificate 68/100 (C1 Advanced) [Issued Nov 2025](#) Credential ID d13b3Y
